

**VB/I-70 Community Health Program  
Arsenic Case Management Measures  
Through 10/01/2005**

**Retests**

<b>Retest Trigger</b>	<b># Recommended</b>	<b># Completed</b>
<b>Elevated Test - hair</b>	4	2
<b>Elevated Test - urine</b>	0	0
<b>Creatinine Out of Range</b>	1	0
<b>Sample Quantity Not Sufficient</b>	2	2

**Case Management Activity**

<b>Consultation/Interviews (Phone)</b>	<b>Environmental Investigations</b>	<b>EPA Referrals</b>	<b>Toxicology/Medical Referrals</b>
18	1	1	1

**Measure Definitions**

**Retests**

**Retest Triggers**

**Elevated Test – hair:** test result greater than 0.20 micrograms per gram hair (>0.20 µg/g hair)

**Elevated Test – urine:** test result greater than 20 micrograms per liter urine (>20 µg/L urine)

**Creatinine Out of Range:** test results invalid – sample too dilute or too concentrated

**Sample Quantity Not Sufficient:** insufficient sample for lab to perform analysis

**Case Management**

**Consultation/Interview (Phone):** follow-up phone calls with participants

**Environmental Investigation:** environmental investigations completed for confirmed elevated tests

**EPA Referral:** referrals to EPA (likely source identification as soil for confirmed elevated test or request for additional effort to test soil due to concern for soil contact behavior)

**Toxicology/Medical Referral:** number of referrals to RMR Pediatric Environmental Health Specialty Unit/other
